

Wallpaper you'll want to hang with

Sherwin-Williams

EasyChange: Sherwin-Williams wallpaper.

Wallpaper has been out — way, way out — partly because it's such a pain to remove. But a couple of manufacturers are tempting consumers back with wallpapers that are as easy to peel off as a Post-it Note.

Sherwin-Williams' EasyChange wallpaper and Twenty2's removable Wallbands have pre-pasted backs that won't stretch or shrink when wet, making application easier. Both can be removed without steamers or liquid strippers: Grab a corner and it pulls right off.

"You can almost strip a whole room as fast as you can walk around it," says Sherwin-Williams' Ron Baumberger.

EasyChange offers 18 collections at \$22-\$42 per 25-foot roll. Twenty2 sells 15-foot-long, 13-inch wide strips for \$56.
